OBJECTIVE

I am a proactive and creative Front-End Developer with strong expertise in React.js, TypeScript, and JavaScript (ES6+), focused on building high-performance, scalable, and responsive web applications. Skilled in translating UI/UX designs into functional interfaces using Next.js, Tailwind CSS, HTML5, and modern JavaScript tooling. I have a growing interest in React Native through self-paced learning and small projects, as well as hands-on experience with Express.js and MongoDB for API development and integration. Passionate about clean, maintainable code, solving real-world problems with technology, and continuously advancing my full-stack and cross-platform development skills.

EXPERIENCE

Frontend Developer (React/TypeScript) & IT Support (Microsoft Platforms)

TotalEnergies Staff Housing Cooperative (TEHC) | (August, 2025 – Present)

- Developed A Banking Web Application with role-based access control (RBAC), JWT authentication, admin portal and RESTful API integration using React and Typescript.
- Optimized the cooperative's WordPress website performance using Google Analytics 4 (GA4) and other analytical tools.
- Created and managed multiple custom pages on WordPress, improving content structure and SEO performance.
- Collaborated in API integration between internal apps and Microsoft Dynamics 365 Business Central, ensuring smooth data synchronization.
- Supported the team with Azure DevOps and Bitbucket workflows for CI/CD and version control.
- Provided technical support across Microsoft platforms, troubleshooting and improving system performance.

Key Achievement: Successfully delivered a secure, scalable web app solution that streamlined member transactions and data handling for TEHC operations.

Front-End Developer & IT Support (Microsoft Dynamic 365)

***Scintilla Innovations* — UK Youth Summer Jobs Programme.**

(April, 2025 – Oct., 2025)

- Designed & managed Dataverse data model: created 15+ custom tables, defined 1: N and N: N relationships, and optimized the schema to support youth-employment workflows.
- Built user interfaces & forms: developed and maintained model-driven and canvas Power Pages; crafted 12+ tailored forms and views, driving a 30% reduction in support tickets.
- Implemented security & roles: configured Web Roles, field- and record-level security in Dataverse to ensure compliant data access for diverse user groups.
- Extended functionality with code: customized UI behaviors and page layouts using JavaScript, jQuery and Liquid templates; integrated client-side validation and dynamic content.

Key achievement: Delivered a turnkey, secure Power Platform environment for the UK Youth Summer Jobs Programme enabling seamless placement tracking and reporting for young participants.

Front-End Developer, NUPAT Technologies. | *Oct 2024 – June 2025)*

- Develop and maintain web applications using React.js, Typescript, Vanilla JavaScript, Tailwind CSS, and HTML/CSS.
- Optimize website performance, reducing load times and improving accessibility.
- Collaborate with designers and backend developers to create seamless user experiences.
- Implement RESTful APIs to fetch and display dynamic data in applications.
- Utilize Git for version control and teamwork in an agile development environment.

JavaScript Instructor, NUPAT Technologies. | Jan *2025 – Present*

- Teach JavaScript fundamentals, ES6+, asynchronous programming, and DOM manipulation to aspiring developers.
- Guide students in building real-world projects, debugging, and writing clean, maintainable code.

- Conduct live coding sessions, workshops, and coding challenges to reinforce learning.

Project Coordinator / Team Lead
HNG Internship | *project*

- Led and coordinated cross-functional teams, ensuring effective collaboration between developers, designers, and mentors.
- Managed project timelines, task allocation, and communication to drive successful project completion.
- Provided technical guidance and support, fostering a learning-driven environment for team members.
- Worked closely with stakeholders to align project objectives with industry best practices.
- Recognized with a **Spotlight Award** for outstanding leadership and contributions.

Front-End Developer, HNG Internship | June *2024 - present*

- Developed interactive and scalable web applications as part of an **intensive remote** internship program.
- Worked on real-world projects alongside industry mentors, applying JavaScript, React, and Tailwind CSS.
- Implemented state management, API integration, and performance optimizations in production-level applications.
- Collaborated with a distributed team using GitHub, Agile methodology, and code reviews.

Front-End Development Trainee
Wokkman, Akure | Oct 2020 – Jan 2021

- Gained hands-on experience in HTML, CSS, and JavaScript, building responsive and interactive web interfaces.
- Developed projects that applied core web development principles, including UI/UX best practices and modern styling techniques.
- Learned the fundamentals of JavaScript programming, DOM manipulation, and event handling.

- Collaborated with peers on coding exercises, debugging, and problem-solving to enhance development skills.

PROJECTS

INKBRIC (Live Demo - Github)

- It is a full-stack architecture, secured and scalable STEM education platform using React 18, Node.js and PostgresSQL, Implementing secure JWT authentication and strict Role-Based Access Control (RBAC) across four distinct user roles.
- It is a type safe performant client application using Typescript and Zod for end-to-end validation, leveraging Zustand for complex global state management in features like multi-step e-commerce workflows.
- It is designed as a responsive, premium "Glassmorphism" interface with Tailwind CSS, optimizing the system with Cloudinary for media handling and Swagger/OpenAPI for automated API documentation.

CaptainTrack Booking Services Platform Website *(Live Demo - GitHub)*

- Designed and built a responsive, booking service landing page using React, Tailwind CSS, and JavaScript.
- Implemented dynamic content loading to enhance user experience.
- Collaborate with designers and backend developers to create seamless user experiences.

UK Summer Youth Program (*Live Demo* - *GitHub*)

- Developing a full-stack MERN web app with a React/TypeScript and Tailwind CSS front-end and Node.js/Express.js back-end, integrating MongoDB for data storage (in progress).
- Implemented responsive UI with dynamic data rendering and RESTful API endpoints for user interactions.
- Optimized front-end performance, achieving 20% faster load times through efficient state management.

TravelEase Flight Booking Website (*Live Demo* - *GitHub*)

- Developed a responsive flight booking and hotel listing interface using TypeScript and React, showcasing international flights and hotels with dynamic filtering capabilities.

- Implemented strong typing through custom TypeScript interfaces to ensure data integrity and enhance maintainability. Node.JS/Express.JS was used for the backend.
- Integrated mock hotel data with real-world images and metadata (e.g., price, rating, availability) for improved UI realism.
- Built a scalable structure suitable for integrating real APIs or backend services in future development.

HNG Project: MENUSWIFT ***(Live Demo - GitHub, Live Demo - GitHub)***

- Built an end-to-end web solution using React, Tailwind CSS, and API integration.
- Worked to develop a multi-user application with authentication and dynamic content rendering.
- Integrated state management and filtering functionality to improve usability.

SKILLS

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, TypeScript, Bootstrap

Mobile Development: Expo, React Native, NativeWind

Backend (Intermediate): Node.js, Express.js, MongoDB, Mongoose

Other Tools & Platforms: Git, GitHub, VS Code, Postman, Netlify, Vercel, MongoDB Atlas, Figma

Concepts & Practices: RESTful APIs, Responsive Design, Form Handling, State Management (Context API, Redux), Authentication (Basic JWT), Agile/Scrum workflows

Website Development: WordPress, Kajabi, ClickFunnels

Soft Skills

Problem-Solving, Communication, Team Collaboration, Adaptability

---

EDUCATION

Post Graduate Diploma in Industrial Chemistry Federal University of Technology, Akure *(2019 - 2021)*

Bachelor of Technology in Industrial Chemistry Federal University of Technology, Akure *(2010 - 2015)*
